Rereading this i am realizing I neglected LAMP. there are multiple items of importance listed here we would be happy to bring to the BID. In general i would recommend we do so over the course of more than one meeting to allow for more of a detailed discussion of each given time constraints and the depth of these topic

For October 20th I would be available to discuss vehicular dwelling ordinance update, touch on measure HHH as it relates to the City's homelessness strategies, and also discuss BID parking restrictions. What do you think?

Let me know your thoughts

Thank you

Hi Don,

Thanks so much for your message and I'm happy to attend and discuss vehicular dwelling as well as BID parking restrictions. I'm checking in internally on whether we are able to include a Manchester square presentation as well. As you saw at the NC this week, there is a whole lot of information surrounding all of the various issues, concerns, policies, and current events surrounding both homelessness generally as well as community needs. We want to make sure to be as prepared as possible for any questions to make the best use of everyones time (for ex: multiple agencies involved in the task force were available for NC to provide support in answering questions who may not for the 20th), and will need to get back to you on the latter.

However please do count on me for the 20th re: vehicular dwelling ordinance. It's on my calendar.

Thank you

I'd like to invite both of you to attend our next WTC BID Board Meeting on Oct 20 @ 10 AM.

I'd like Omar to present his slide presentation from last night's WPNC. The BID Board should be more knowledgeable about Manchester Square and the LAMP Project.

I'd like Anna to present the City's proposed parking restriction changes. (I forgot the fancy name you have for it). Anna you asked about parking restriction changes on Manchester and I think we sent an email of support to prohibit Overnight Parking. Is that right? Are those changes proceeding? Is Overnight Parking prohibited in the entire BID area? Particularly Sepulveda? If not, I think we need to get that in motion before the City implements their proposed changes.

Can we count on you for Oct 20?
